ABOUT ME

Hi ,I'm Abbas(Parham) Payam, a FRONT END DEVELOPER! it's been 4 years since I started coding, first, I started my journey with HTML, CSS, and javaScript, then I studied reactjs and nextjs, I was working as a freelancer for about 2 years, and after that, I felt I needed to be in a company to learn teamwork and gain some more experience, so I joined improver digital company and then nexprover
I learned so many things and I did some great work there

WORK EXPERIENCE

- **FRONT END DEVELOPER**

Nexprover - England

Sep 2021 - Since now

working on dapps mostly,like an nft shop,an nft marketplace with its admin panel,and some ordinary websites for clients
Technologies used are
react.js, next.js, redux.js, redux saga, react-query, axios, styled-component web3-react, web3

- **FRONT END DEVELOPER**

Improver Digital Tech - Turkey

Sep 2021 - Sep 2021

My role was to write, style, and manage the front-end part of our company, making websites and admin panels for clients, along with the company's projects
Technologies used are
reacts.js, next.js, redux.js, redux saga, axios, styled-components

- **FRONT END DEVELOPER**

Freelance

2018 - 2020

I made websites using html,scss,js and react.js for clients that needed an online portfolio,or a landing page,nothing so big

TOOLS I USE

Redux, Redux-saga, Axios, React-query, Yup, Hook Form, Gsap Framer Motion, Styled-Components, ...
